Skills

- JavaScript | Typescript | Nodejs | Nestjs | python
- MongoDB | PostgreSQL | Prisma | Resful API
- React | Nextjs | Anti Design
- BRS | SRS Documents | UML Diagrams
- Linux | Tcpdump | Wireshark
- Computer Networking | Camptia A+ | CCNA

Education Background

- **Darusalaam University**
last year student at Darusalaam University (part-time)

About Me

Software Engineer, Junior Cybersecurity Analyst, & System Analyst with 4+ years of experience, bringing a versatile skill set in full-stack development, system analysis, and cybersecurity. I specialize in designing and implementing secure, scalable, and efficient software solutions while optimizing systems for performance and functionality.

Currently thriving as a System Analyst, I am adept at analyzing system requirements, improving architectures, and ensuring operational scalability. With a strong foundation in Linux command line and hands-on experience in security analysis, I am passionate about integrating cybersecurity principles into all stages of system and software development.

I aim to leverage my combined expertise in software engineering, cybersecurity, and system analysis to contribute to innovative, secure, and high-performing technology solutions.

Certificates

Programming Foundation With Javascript, HTML and CSS

Coursera (Duke University) 2020

NESTJS The Complete Developer Guide

Udemy 2023

Google Cybersecurity Professional Certificate

2024

8 Course series with 8 certificates

- Foundation of Cyber security
- play it safe: manage security risks
- connect and protect networks and network security
- tools of the trade: Linux and SQL
- Assets, threats and vulnerabilities
- Sound the alarm: Detection and Response
- Automate CyberSecurity tasks with Python
- put it to work

Kali Linux

infinity Board 2024

Introduction to TCP/IP

Yonsie University 2024

Professional Experience

Tabaarak ICT Solution

feb 2024 - Present

System Analyst

- Evaluated and analyzed business requirements, project plans and timelines.
- collaborated with cross-functional teams to ensure smooth project execution
- Developed and maintained technical documentations, user guides, and training materials
- Gathered Business Requirements, Analyzed and created BRD, BRS Documents and Various UML Diagrams

Normed Technology

Sep 2023 - present

Freelance Software Developer

- Designing, Developing, Deploying and Maintaining Software Systems

Asal Solutions

jun 2022 - Sep 2023

Software Developer

- Worked on large scale systems and participated in the whole software development process from design to implementation and delivery
- Added new Features to existing Software and improved performances
- contributed both frontend and backend development process

Tiigsi Technology

Aug 2021

Online Course Instructor

- Recorded 3 online Courses with practical projects
- html and css course for beginners
- Reactjs Course with project
- nextjs Course With project

Projects

Safaa Online System (SaaS Software) 2023

- I spearheaded the entire system lifecycle, from requirements analysis and system architecture design to database design and implementation.
- I have developed a POS system from scratch, as a solo developer, including the frontend and backend, and deployed it to cloud servers.
- Admin / user functionalities, creating Products, categories, payment reports, dashboard, Authentication and Authorization, filtering and sorting functionalities and more.
- Tech stack used:
 - nodejs | GraphQL | Prisma | PostgreSQL
 - Nextjs | Anti Design | redux toolkit
